Crushing superiority all year round

## MULTIPURPOSE CRUSHER FOR PROFESSIONALS

Mericrousher land clearing crushers are high quality, durable and cost-effective crushers for demanding professionals, MJH series MeriCrushers are ideal for medium to high hp tractors 200-768 hp working in conditions where reliability and durability are paramount.

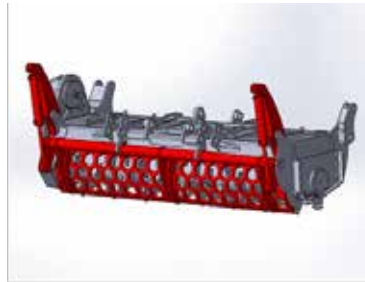

Dual transmission Suokone gearboxes C/W POC-clutches keep the wheels running in heavy and power demanding conditions. The POC's advanced torque adjusting system guarantees the same torque to each side gearbox, and limits torque peaks at any power level.

UNT rotor C/W special conical tips having extra in-depth carbide, work ideally at low rotor speed.

Hydraulic front plate and massive rear roller. Extra heavy duty side gearboxes can transmit 400 hp each to the low speed rotor.

Hydraulic screen gives excellent crushing result.

MODEL	Power range (hp)		Rotor diameter mm/inch	Rotor width mm/inch	Overall width mm/inch	Weight kg/lbs	Working depth max. mm/inch	Teeth qty
	min	max						
<b>MJH-241 DTG</b>	200	300	600/24	2440/96	2800/110	2700/5994	300/12	104
<b>MJH-241 STX</b>	200	400	600/24	2440/96	2800/110	2900/6438	300/12	104
<b>MJH-350 STX</b>	280	400	600/24	3550/140	3850/152	3500/7770	300/12	156
<b>MJH-350 DTX</b>	350	768	600/24	3550/140	3950/156	3800/8436	300/12	156

The given weights can vary due to the options chosen. ST-single transmission. DT-dual transmission.

DISTRIBUTION & SALES IN NEW ZEALAND
